

# Understanding basic Bond Rating Scales

The ranking of credit quality is done with the help of rating symbols which broadly classify instruments into investment grades. Rating agencies like CRISIL assigns ratings to rupee dominated debt instruments.

# High Investment Grades

'AAA' (Triple A) Highest Safety

'AA' (Double A) High Safety

# Investment Grades

'A' Adequate Safety

'BBB' (Triple B) Moderate Safety

# Speculative Grades

'BB' (Double B) Inadequate Safety

'B' High Risk

'C' Substantial Risk

'D' Default
